

Computer Literacy Program 2016 Annual Report

The Computer Literacy Program (CLP) turned 12 in 2016. It is a pleasure to report to you that the last pre-teen year of CLP was one of steady and sustained growth. With generous help and continuing support from donors and sponsors like you, progress was made in different spheres of CLP activities. The core mission of *empowering underprivileged rural youths through computer literacy and technology-aided education* proceeded unabated through the established Computer Literacy Centers (CLCs) and Smart Class Rooms (SCRs). New initiatives were introduced and some of the older projects were revamped. What follows is a brief overview of the key CLP activities in the year twelve since the inception of the program.

- ❖ While the current focus is on sustaining and advancing the established CLCs and SCRs, two new CLCs and two new SCRs were established in 2015–2016 operation year. These additions bring total number of CLCs to 260, associated CLCs to 97 and SCRs to 157.
- ❖ The number of students completing the computer literacy training from the above-mentioned CLCs in 2016 operation year is over 13,000 (more than 100,000 since the inception of the program). Over 70,000 students benefited from SCRs in 2016, while the total number since the start of the SCR program is more than 170,000.
- ❖ **Connecting Parents to School (CPS)**, the second innovative project, is aimed at connecting parents to the school website via their mobile phones. Information pertaining to their respective students and school activities will be accessed through the mobile phone, and a teacher would be able to contact parents as needed. A pilot project to implement the CPS. Concept has been launched in 28 schools with CLC and 42 schools without a CLC.

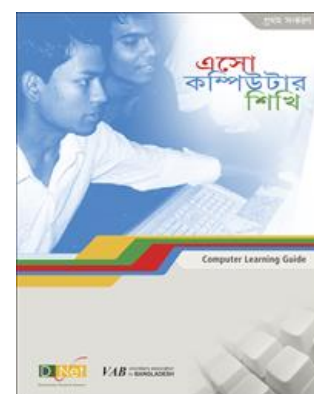

To donate for the cause, please make check payable to **CLP** and mail to **6 Tharp Lane, Marlboro, NJ 07746**. Tax ID: **46-0646134**

- ❖ **Education through Entertainment (EE)** (EE) is one of the two innovative projects that were initiated in the current operation year. The intent of this new initiative is to educate students through entertaining structured activities. The EE project leverages on the facilities of a SCR to show students a pre-selected engaging video (or, videos depending on the length) on an interesting topic. The topics intended to be covered in the EE content library include domains of human intellectual and creative activities, such as, literature, arts, science, nature, history, geography, personalities, current events, health, and medicine, to name a few. The anticipated benefits of this program are: providing an engaging and enjoyable learning environment; fostering listening and comprehension skills; imparting knowledge and building awareness through entertainment; and sharpening communication skills through participatory discussions. A pilot project was run in five schools with SCRs, using 14 videos adapted from open sources. The project received enthusiastic acceptance from students and teachers.

   					
SL	Name of content	Type of content			
1	Visit Beautiful Places in Bangladesh	Lesson plan	Video 1.1(10 m)	Video 1.2 (5 m)	-
2	Language Movement	Lesson plan	Video 2.1 (3 m)	Video 2.2 (3 m)	Video 2.3 (4 m)
3	Life story of Bill Gates	Lesson plan	Video 3.1 (22 m)	Video 3.2 (9 m)	-
4	Balanced Diet	Lesson plan	Video 4.1 (23 m)	Video 4.2 (3 m)	Video 4.3 (6 m)
5	We'll Protect Ourselves	Lesson plan	Video 5.1 (16 m)	Video 5.2 (13 m)	-
6	Be Kind	Lesson plan	Video 6.1 (5 m)	Video 6.2 (4 m)	Video 6.3 (9 m)
7	How to Succeed	Lesson plan	Video 7.1 (4 m)	Video 7.2 (6 m)	-
8	Environmental Conservation	Lesson plan	Video 8.1 (15 m)	Video 8.2 (9 m)	-
9	Apocalyptic Natural Disaster	Lesson plan	PPT 9.1	Video 9.2 (20 m)	-
10	Facts about Elephants	Lesson plan	Video 10.1 (20 m)	Video 10.2 (6 m)	-
11	Global Fresh Water Challenge	Lesson plan	Video 11.1 (5 m)	Video 11.2 (7 m)	Video 11.3 (4 m)
12	Do what You are Good at	Lesson plan	Video 12.1 (11 m)	Video 12.2 (4 m)	-
13	Build Good Habits	Lesson plan	Video 13.1 (4 m)	Video 13.2 (10 m)	Video 13.3 (5 m)
14	Gain Wisdom from Stories	Lesson plan	Video 14.1 (6 m)	Video 14.2 (6 m)	Video 14.3 (4 m)

All videos are taken from open sources

- ❖ **"Esho Computer Shikhi"** (Let us Learn Computers) has served as a unique manual to provide computer and Internet literacy training to over 100,000 underprivileged students in 56 districts of Bangladesh. As the copies of the earlier edition ran out, demand for the manual from students ran high, and contents needed revision and expansion, an enhanced and revised third edition manuscript of the manual was prepared. We have reached an agreement with a sponsor in Bangladesh to provide funds for publication so that the manual may be made available to the students at an affordable price.

To donate for the cause, please make check payable to **CLP** and mail to **6 Tharp Lane, Marlboro, NJ 07746**. Tax ID: **46-0646134**

- ❖ Another major accomplishment was revamping of the contents for SCRs. As you know, the initial focus was on teaching four subjects: *Everyday English, Geography, Mathematics and Science*. However, the need and demand for contents and lesson plans that can accompany the NCTB (National Curriculum and Textbook Board) curricula for different grade levels was always high. With feedback from high school teachers, an assortment of videos, animated games, flash animations and power-point slides were developed for nine NCTB books covering the original four subjects and English Grammar for different grade levels. With the recent revision of the National Curricula and the text books, a good portion of the originally developed contents did not correlate with the new text books. To remedy the problem and address the need for new contents, we consulted a research team from the Institute of Education and Research (IER) of the University of Dhaka, to develop detailed step-by-step lesson plans for the nine subjects. A computer CD containing teaching contents as well as lesson plans has been produced for use by the teachers and mailed to all schools with SCRs.
-
- ❖ Maintenance and sustenance of the established CLCs and SCRs is a major cost for the program. Even when the sponsor cost shares, the program has to come up with 50% of the funding required to provide full support for a CLC and/or a SCR. During this operation year CLP provided full maintenance to 69 CLCs for which respective sponsors participated in cost sharing arrangement. Remote monitoring and technical guidance was provided to remaining CLCs and 157 SCRs without cost sharing. Hardware in quite a few of the earlier established centers required replacement. The program delivered 16 desktop and 18 laptop computers this year to the CLCs covered under the maintenance plan. We seek your support for maintenance of these CLCs and SCRs.
 - ❖ Celebrated 12 years of achievement (2004-2016) in a lively CLP Annual Event on July 23, 2016 at Rutgers University Center, NJ, USA.

Mark your Calendar!

2017 CLP Annual Event is tentatively scheduled for **Saturday, July 29, 2017** at Rutgers Cook College Student Center, New Brunswick. We will contact you with details as we get close to that date. We look forward to your continued active support in the future.

CLP Seeks your continued support

CLP sincerely appreciates your support and donations to maintain its current level of activities. *Your continued support and generous contributions* are crucial to the overall success of the program. Please visit www.clpweb.org for more detailed information on our program.

Please enable Amazon to donate 0.5% of your Amazon online shopping to CLP by using Amazon Smile browser and selecting CLP your favorite charity.

CLP wishes you and your family and friends a happy and successful year ahead.

To donate for the cause, please make check payable to **CLP** and mail to **6 Tharp Lane, Marlboro, NJ 07746**. Tax ID: **46-0646134**
