

Essential Office Skills Course Evaluation Report

Overview of the Course:

The **Essential Office Skills** program is a comprehensive initiative jointly developed by CLP and PI to improve the job seekers skills by equipping participants with job search and essential office competencies. This course emphasizes core areas such as **Job Interview Basics, Professional Excellence, Office Etiquette, Business Communication, ICT Skills** and **English Proficiency** ensuring participants are well-prepared to contribute effectively from their first day in a professional role.

Delivered over a three-month period, the program includes **60 hours of practical instruction through a blended learning approach**. The training incorporates participatory methods such as hands-on activities and expert-led sessions, fostering an engaging and effective learning environment. Key modules cover job search and interview basics, ICT skills, including MS Office and ChatGPT proficiency, as well as professional behavior, ethics, verbal and written business communication, and workplace English.

Participants will develop the skills required to perform office tasks efficiently, enhance professional communication, and adapt to workplace standards. Upon successful completion of the program, **including summative assessment** participants will be **awarded a certificate**, signifying their readiness for professional roles.

Key Findings

The evaluation of the Essential Office Skills course highlighted its strengths and areas for improvement. Participants expressed high satisfaction with the course, praising the expertise and teaching methods of the trainers. Suggestions for improvement included adding better Bangla translations to support those struggling with English and enhancing internet connectivity and computer lab facilities. Despite these minor challenges, **the program was rated well-structured and praised for job search and professional skill development, with unanimous agreement on its importance and substantial learning outcomes.**

Participant Satisfaction Overview

The quantitative evaluation of the **Essential Office Skills course** revealed high participant satisfaction, with **100% of respondents recognizing the course's importance for job seekers and 91% acknowledging significant new learning.** Additionally, most participants reported attentiveness during sessions, highlighting the program's engaging delivery.

Participant Feedback and Insights

The qualitative feedback from participants provides valuable insights into the strengths and areas for improvement of the **Essential Office Skills course**. It highlights the aspects of the course that were most appreciated, as well as suggestions for enhancing its effectiveness. Participants shared their experiences regarding the course's content, delivery, and impact, offering a comprehensive view of its overall success and areas needing refinement.

Which Part of This Course Did Participants Like the Most?

Participants provided overwhelmingly positive feedback about the **Essential Office Skills Program**, highlighting various aspects they enjoyed. A common sentiment was the appreciation for online classes, with one participant stating, *"I enjoyed the online classes of this course the most, especially those conducted by Parisa Ma'am, Shuddha Sir & Sabbir sir"* Many also praised the teaching style and professionalism of the instructors, as noted by a participant who shared, *"I liked the teaching ways of the teachers and the overall course management the most."*

Specific components of the course stood out for their impact. The **English classes** and **interview sessions** were particularly valued, with one participant remarking, *"The best part of this course was the English classes and interview sessions because they helped me overcome my hesitation in speaking English and learn about job preparation and interview techniques."* Similarly, the **remote classes** and **computer classes** received significant praise, especially those conducted by Dr. Shuddha Rafiq and Dr. Mohammad Farooque, as highlighted by another participant: *"I liked the computer classes in this course, and I enjoyed the classes conducted by Shuddha Sir and Farooque Sir."*

Participants also appreciated the holistic approach of the course, encompassing professional behavior, office policies, and confidence-building. One participant summarized this sentiment, saying, *"This course was very good and helpful in all aspects, including learning to speak English, understanding office policies, and developing professional behavior."* These comments reflect the program's strong impact on participants' readiness for professional roles.

Which Part of This Course Needs Improvement?

While participants expressed satisfaction with the **Essential Office Skills Program**, some areas for improvement were identified. The **English classes**, though appreciated, could benefit from enhancements, as one participant suggested, *"In the course, it would be helpful to provide better translations in Bangla along with English, as we do not fully understand English well."* Another participant mentioned, *"The structure of the English course contents needs further improvements."*

Logistical challenges were also noted, particularly regarding internet connectivity and computer lab facilities. One participant remarked, **"If all the computers in the computer lab had internet access, it would make working much easier."** Additionally, the need for faster internet and improved room decoration was highlighted by a participant who commented, **"The internet connection needs to be faster, and the room decoration could be improved a bit more."**

The future course improvement will be guided by the feedbacks received from the participants.

Recommendations for Improvement

1. **Revise Course Content:** Update modules on English, office communication, ICT, and practical skills to align more effectively with the current job market demands.
2. **Enhance English Classes:** Revise English content to include current trending topics and emphasize activities that improve participants' language proficiency through practice sessions.
3. **Upgrade Logistics:** Improve internet speed, ensure reliable internet access for all lab computers, and enhance classroom décor to create a better environment for online classes.
4. **Integrate Practical Sessions:** Introduce hybrid sessions for soft skills, combining remote classes with workshops or face-to-face training for hands-on learning experiences.

Learning Evaluation Score

All participants learning were assessed: ICT skills through a lab test. Office soft skills through a written test and their presentation skills in English through a viva test. Their performance, as

Figure2: Learning Evaluation Score

presented in Figure 2, demonstrates a satisfactory outcome.

However, they may benefit from ICT and self-presentation skills enhancement. The last bar indicates that participants demonstrated strong performance in the written exam; however, there

is significant potential for development in their ICT skills and formal-presentation.

Figure 3 Participant Score Range with Average Score

Figure 3 shows the total learning evaluation marks range, with an average score of ~70.

Most importantly, 72% of participants scored above the

average, demonstrating the overall success of the course.

This positive outcome highlights the course's effectiveness in enhancing participant learning and equipping them with the skills needed to thrive in the current job market.

Conclusion

The **Essential Office Skills Program** is a well-structured and impactful initiative, successfully equipping participants with the necessary skills to excel in professional environments. By improving some areas such as ICT proficiency, professional behavior, business communication, and English language skills, the program has enhanced participants' job readiness and confidence. While minor logistical and instructional improvements can further refine the course, the overwhelmingly positive feedback from participants underscores its value and effectiveness in bridging the skill gap in the job market. This program stands as a valuable model for fostering workplace competency and professional growth.
